MOTION

June 30, 2010

Creating Safe Streets in Bond Hill

WE MOVE that City Council direct the City Manager to work with Mr. Michael Moore, the Interim Director of Transportation and Engineering, to immediately pursue with all due diligence the installation of a traffic light at the intersection of Berkley Avenue and Reading Road in the Bond Hill community within the next 30-60 days.

STATEMENT

Bond Hill residents have petitioned the City of Cincinnati for months for a traffic light at the intersection of Berkley Avenue and Reading Road. As well, the Bond Hill Community Council has expressed strong support for a light at this intersection. To date, this intersection has been a public safety nightmare for the neighboring residents and it is time to provide for the safety they deserve.
